ROLLOUTS

Factory Installed Rollouts (Default Locations)

When ordering rollouts, please specify the position #

To install a rollout in a non-default location please use the code **RTI**, and attach a detailed drawing (\$26 each)

Rollout widths may be reduced to prevent interference with other hardware, as outlined below:

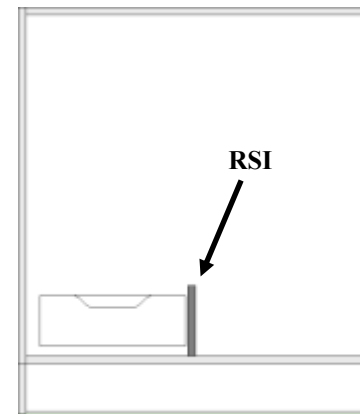

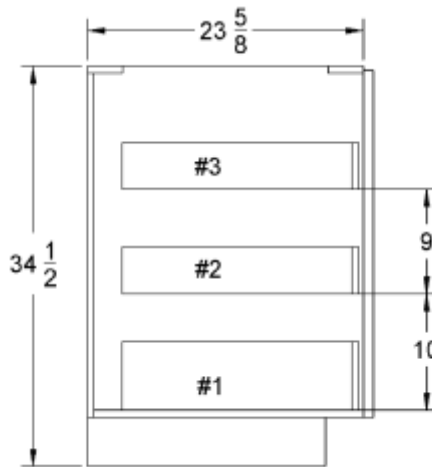

Rollout installed behind a single Door - Reduced by 1", to allow hinge clearance

Rollout installed behind 2 doors - Reduced by 2", to allow hinge clearance

Rollout installed behind a drawer - No reduction necessary

Bottom mount hardware will be used (on the hinge side) for Rollouts in Location #1 and #4 and the rollout width will be reduced an additional 1/2" per door.

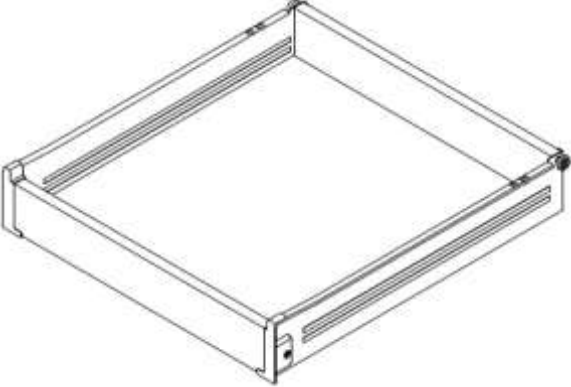

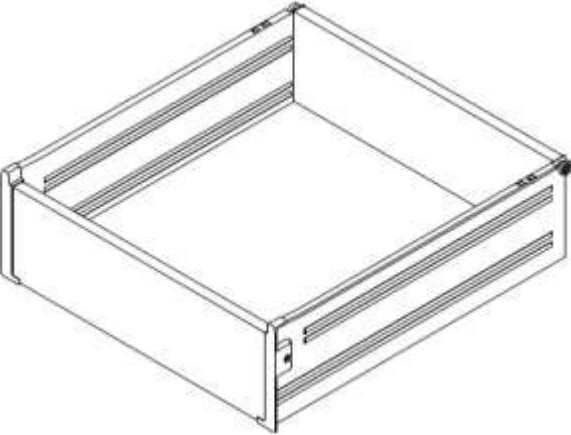

If the rollout does not extend the width of the cabinet, add a 6" high partition (8" high for 149mm integra rollout) **RSI**(\$40 each)
