About Polyester Doors:

Five-piece polyester (DLV) doors are constructed by placing polyester-saturated paper over particle board and MDF, where they are subjected to high pressure and heated in a press. The decorative surface and substrate are permanently fused together. The surface of polyester thermally-fused laminate equals or exceeds vertical grade high-pressure laminates and outperforms thermofoils, top-coated papers and vinyl in wear, scuff, and heat resistance.

Morning Dew is a warm beige with grey undertones. This muted shade is very versatile and enhances any décor.

Morning Dew is available in Polyester and Urban doors at a DM2 price point
